ABOUT US

Zhongshan Ceiling Light Co., Ltd.

Zhongshan Ceiling Light Co., Ltd. is a lighting manufacturer based in Guzhen Town, Zhongshan, Guangdong · the heart of China·s lighting industry. We design and produce modern decorative lighting for wholesalers, importers, lighting retailers and project buyers around the world, with a strong and growing presence in Latin America.

From material selection to hand assembly and burn-in testing, production is handled in our own facility, so we control quality and lead times at every step. Our range covers both a curated design collection and a full-range catalog system, plus retractable LED fan lights for home and commercial projects.

Our assembly workshop

Aging-test area · every lamp is burn-in tested

Real factory. Real production lines. Real quality control.

ZHONGSHAN CEILING LIGHT CO., LTD.

HOW WE PRODUCE

Five steps from raw materials to a ready-to-ship carton

1. Materials & Parts

Alabaster, travertine, brass and metal parts are checked and prepared in-house.

2. Wiring & Pre-assembly

Drivers, sockets and wiring are fitted and checked component by component.

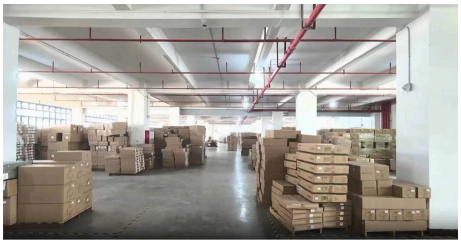

3. Hand Assembly

Skilled workers assemble each fixture by hand, including our brass designs.

4. Aging Test

Every finished lamp is powered on for a burn-in test before it is approved.

5. Packing & Warehouse

Approved products are packed and stored in our finished-goods warehouse, ready for fast dispatch.

MATERIALS & CRAFT

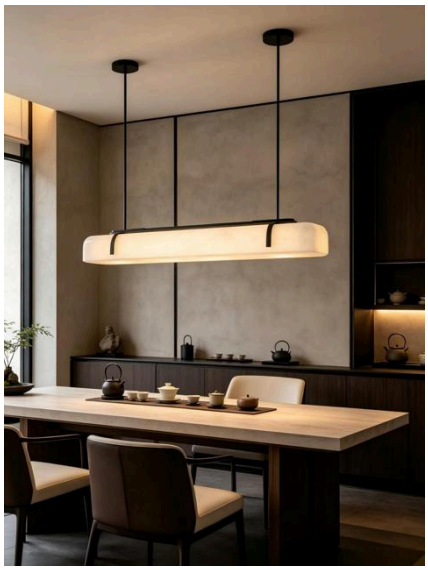

Natural stone, solid brass, and details finished by hand

Our decorative collection is built around materials that age beautifully: genuine alabaster and travertine stone with unique natural veining, solid brass with warm brushed finishes, and precision metalwork. Stone shades are cut, polished and matched by hand, so every piece carries its own natural character · no two alabaster shades are exactly alike.

- Natural alabaster & travertine stone shades
- Solid brass bodies and fittings
- Warm LED light sources, three color temperatures on many models
- Hand-finished assembly and inspection, piece by piece

PRODUCT RANGE

XIL Decorative Collection 2026 · 144 models

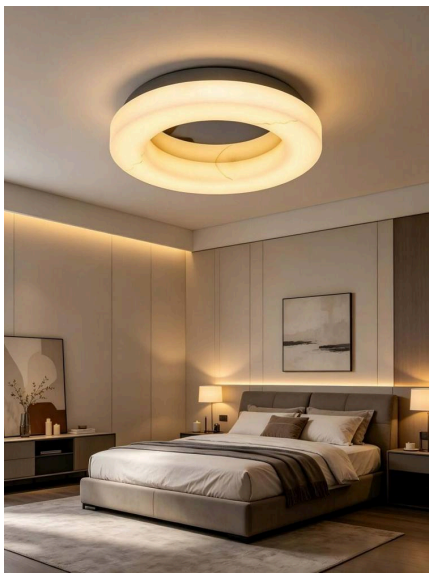

Pendant Lights

64 models

Wall Lights

68 models

Ceiling Lights

8 models

Table Lamps
